

Getting Started

1

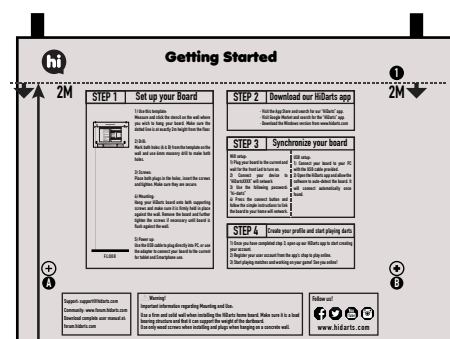

2M ↓

A

STEP 1

Set up your Board

2 M.

FLOOR

1) Use this template: Measure and stick the stencil on the wall where you wish to hang your board. Make sure the dotted line is at exactly 2m height from the floor.

2) Drill: Mark both holes (A & B) from the template on the wall and use 6mm masonry drill to make both holes.

3) Screws: Place both plugs in the holes, insert the screws and tighten. Make sure they are secure.

4) Mounting: Hang your HiDarts board onto both supporting screws and make sure it is firmly held in place against the wall. Remove the board and further tighten the screws if necessary until board is flush against the wall.

5) Power up: Use the USB cable to plug directly into PC, or use the adapter to connect your board to the current for tablet and Smartphone use.

STEP 2

Download our HiDarts app

- Visit the App Store and search for our "HiDarts" app.
- Visit Google Market and search for the "HiDarts" app.
- Download the Windows version from apps.hidarts.com

STEP 3

Synchronize your board

Wifi setup:

- 1) Plug your board to the current and wait for the front Led to turn on.
- 2) Connect your device to "HiDartsXXXX" wifi network
- 3) Use the following password: "hi-darts"
- 4) Press the connect button and follow the simple instructions to link the board to your home wifi network.

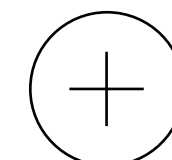

USB setup:

- 1) Connect your board to your PC with the USB cable provided.
- 2) Open the HiDarts app and allow the software to auto-detect the board. It will connect automatically once found.

STEP 4

Create your profile and start playing darts

- 1) Once you have completed step 3, open up our HiDarts app to start creating your account.
- 2) Register your user account from the app's shop to play online.
- 3) Start playing matches and working on your game! See you online!

B

⚠ Warning!

Important information regarding Mounting and Use:
 Use a firm and solid wall when installing the HiDarts home board. Make sure it is a load bearing structure and that it can support the weight of the dartboard.
 Use only wood screws when installing and plugs when hanging on a concrete wall.
 Do not use the product if the dartboard has any visible defects. Please turn off the power immediately, unplug cables and contact the retailer or distributor.
 This is a professional dartboard and not a toy. During play children should be accompanied by adult supervision at all times.
